GRAVEYARD

"No outside producer. No detours. Just GRAVEYARD, straight to the point, doing what we do best. This just might be our greatest album so far!"

GRAVEYARD, 2026

INFO

One of the most unique forces in modern rock music, Sweden's very own **GRAVEYARD**, is back with their highly anticipated seventh studio album!

With **Fever**, they present a heavier, grittier sound courtesy of Pelle Gunnerfeldt who also captured the ferocious energy of The Hives, Refused, and Viagra Boys.

With two number-one albums in Sweden already to their name, GRAVEYARD will initiate the touring cycle with a co-headline run through EU/UK with Blues Pills, followed by global touring and festivals in 2027.

Brace for impact, **GRAVEYARD** came back from the grave and they caught a **Fever**.
